

Canadian Nuclear Laboratories (CNL) - Near Surface Disposal Facility Project (NSDF)
VIRTUAL INDUSTRY DAY
Tuesday January 12th, 2021 09:00 to 11:30 am EST

CALL FOR EXPRESSIONS OF INTEREST

CNL's Preferred Contractor **Wood Canada Ltd.** with Subcontractor Maple Reinders Constructors Ltd. (the Team) invite you to participate in a Virtual Industry Day to learn about procurement opportunities associated with the Near Surface Disposal Facility (NSDF) Project at CNL's Chalk River Campus.

The NSDF is planned to be constructed as an engineered repository for low-level radioactive waste. The NSDF will be comprised of:

- Engineered Containment Mound (ECM),
- Wastewater Treatment Plant (WWTP),
- Five modular and pre-engineered support facilities (SF) – Vehicle Decontamination Facility, Operations Support Centre, Administration Building, and two kiosks with weigh scales,
- Work site infrastructure (SI) including underground utilities, electrical systems, roads, and services,
- General condition services, materials, and equipment.

REGISTER: NSDFChalkRiver@woodplc.com

Please identify **company, business type/service/supply** with participant names and email addresses.

CONNECT: Invitation to virtual session will be sent via email upon registration with the agenda. Virtual session is to be hosted via a Microsoft Teams link.

TOPICS: Attendees will be presented with updates on the Project, Scope, bid / proposal process and key dates.
