

## **Project Coordinator and/or Tradesperson For Modern Niagara Zibi Project Team**

Modern Niagara helps build and maintain the spaces where Canadians live, learn, work, and heal by meeting the mechanical, electrical, and building controls and services needs of Canada's infrastructure. We value passion, initiative, determination, professionalism, and teamwork and we are committed to ensuring that our teams have everything they need to succeed. Health and safety are embedded in everything we do and, as a result, our award-winning safety culture has a record that's well above industry standards.

At Modern Niagara, you will work alongside values-driven, safety-conscious, and high impact teams in a fast-paced, innovative, and collaborative environment. Here, your knowledge, skills, and excellent service will help ensure that the buildings that make up Canada's infrastructure fulfill the needs they were set out to meet.

Modern Niagara is one of Canada's Best Managed Companies and is a recipient of SMACNA's Safety Excellence Award Program (SSEAP) – Canada and the Canadian Occupational Safety (COS) Magazine's Canada's Best Health + Safety Culture Award and Canada's Safest Employers Award in the Building and Construction category.

We are looking for a Tradesperson to join our team in **Ottawa/Gatineau**, as initially part of the **Zibi** project team. Given this project's borders, the project work will be done on both Quebec and Ontario lands and will be ongoing for several years. Modern Niagara is seeking prospective candidates to support their work on the Zibi project, while simultaneously hiring for the future beyond the Zibi project.

**We are currently inviting members of the surrounding Algonquin Anishinaabe and/or broader First Nations communities to apply for this new and exciting position.**

The Zibi project, which is a new community-scale sustainable development is located on the Ottawa River, bordering both Ontario and Quebec. A top priority for this project is the engagement and partnership of the Algonquin Anishinaabe, making for a collaborative approach unlike any other, with a commitment to improving the way Indigenous Peoples and non-Indigenous private sector companies work together. Modern Niagara is proud to be a member of this project team and contributing to this complex and highly specialized work. [Modern Niagara](#) (MN) is a reputed mechanical, electrical, plumbing contractor that operates across Canada.

**Qualifications and Experience:**

Modern Niagara is a construction contractor with specialisms in commercial Mechanical, Electrical, Plumbing works. This position is available and open to both skilled trades people with technical experience and knowledge, as well as those who have limited experience and/or are looking to start a career in the construction industry.

- Of interest, but not required; Prior experience, training or interest in:
  - HVAC technician;
  - **OR** Pipe fitter;
  - **OR** project coordination, project management
  - Candidates may also have prior experience in general labour, with an interest to transition to the above fields within the operations team.
- Ability to work in Quebec and/ or Ontario
- Ability to speak French is an asset for this role, but not required
- Driven, motivated, punctual.

Live the Modern Niagara Core Values - Teamwork, Initiative, Determination, Professionalism, Passion
